Arbuckle Picture Contracts Ordered Cancelled By Hays
BACK IS HALTED
to Test Public on Film Deferred By Producers
ANGELES, April 19.—Silent film developments were the policy today of Roscoe C. Arbuckle, film comedian. Contracts have been ordered cancelled by Hays, chief of the Motion Picture Production Association.
It was Arbuckle's comment on the late night of Mr. Hays' announcement.
Arbuckle recently was acquitted in a manslaughter case in connection with the death of Virginia Rappe, a party comedian added to the picture production.
It was a complete surprise and a shock to him. He is all about it. He thought it was a joke. He is now in Los Angeles, where he will know all about it. He is entirely at sea as to what to do. He is being asked to explain it. He will content himself with a statement.

CONTRACTS CANCELLED
YORK, April 19.—Cancellation of contracts for the showing in which Roscoe C. Arbuckle appears, was announced by Will H. Hays, head of the Motion Picture Production Association. This action, he said, affected 10,000 contracts.
In consultation with Nicholas Schenck, representing Joseph Schenck, producer and head of the Players-Lasky corporation, Hays said that he had asked that all showings and all bookings be cancelled. He said that the action is taken on the ground that the fact that they had 10,000 contracts in force for the showing of Arbuckle's picture, "The Flamingo", was a "kick" of public opinion.

UP TO MR. HAYS
Mr. Zukow was asked if the producers' association moved Arbuckle definitely from the list of screen stars, he simply left the matter in the hands of the future. It is up to him to decide whether to allow Arbuckle to continue in the picture business. Mr. Zukow said that the fact that the producers' association had been completely before the fact of the death of Virginia Rappe. The producers' association had been completely before the fact of the death of Virginia Rappe. The producers' association had been completely before the fact of the death of Virginia Rappe.

WORKS CHILDREN COULD WORK MORE
KANE, Wash., April 19.—American children need more physical and less codding, Dr. A. T. McKim, state health officer, said in an address before the health officers of the nation from Washington, Oregon and California.
American children should be made to work in the formative part of their lives, the Kentuckian said. He said that the working nation if it is to maintain its leadership.
McKim said that typhoid fever is prevented by vaccination. An individual has a massive typhoid bacillus. He quoted statistics in support of his statement.

OR ORDERS ALL RAISE WHISKERS
SACRAMENTO, Calif., April 19.—A order requesting all male emigrants, including policemen, to start growing whiskers in preparation for the 142nd anniversary of the birth of George Washington, was issued today by City of Sacramento, following a resolution of the Whiskers club of which the city is a member.
The Whiskers club, which is a new organization, is a club of men who are asked to grow whiskers. The new rules of the club, any man who has a beard before must submit to having his head shaved.

Germany Protests Being Barred From Discussion on Russia
BACKED BY DENMARK
France Is Happy Over Manifestation of Entente Bloc's Unity
GENOA, April 19.—(By The Associated Press.)—Dr. Walter Rathenau, the German foreign minister, conferred with Prime Minister Lloyd George of Great Britain and Foreign Minister Claitorin of Russia today regarding the barring of Germans from the Russian commission of the conference. The Germans probably will submit a formal reply tonight on this subject.
The expected German demand for discussion of her case before a plenary session of the economic conference will prove a "mortal blow" to the conference. It is declared in a French communiqué issued here today dealing with the Russo-German treaty and the attitude of the allies in considering Germany eliminated from further discussions of the Russian question.
UNITY AFFIRMED
The communiqué says that for the first time since the signing of the treaty of Versailles the world sees the names of the representatives of nine powers making up an entente affixed to a document which protests German conduct.
The communiqué insists that the dragging of the controversy into the full session of the conference would bring about a situation which Europe wishes to avoid, namely the linking of new political groups, one against the other. It refers to the signing of the Russo-German treaty as "a manifestation of the Bismarckian spirit which caused the entire bloc immediately to affirm its unity."
CONFERENCE SAVED
The Genoa conference apparently has been saved. For the last two days it has been tottering on the edge of collapse, due to indignation of some of the more important leaders over the action of the Germans and Russians in secretly concluding a treaty covering the principal and most delicate points under consideration by the conference.
Now, however, the delegates are to go forward with their work, but the Germans are barred from participating in all deliberations concerning the Russian question. This penalty was laid down in a note of censure to the Berlin delegation yesterday after consideration of the situation by representatives of the five inviting powers and in the little entente.
"While the conference was sitting and while Germany was represented by the commission and sub-commission charged with the negotiations of European peace with Russia," said the note, "the German representatives on that commission have behind the backs of their colleagues concluded already a treaty with Russia on the very question which they had undertaken to consider in loyal conjunction with representatives of the other nations."
GERMANY MAY QUIT
Whether Germany will continue at the conference is problematical, but her delegates are drafting a reply to the note of censure and it is thought that while protesting their debarment from the commission's dealing with Russian affairs, they will remain.
Their reply is expected to make the point that only the full conference has power to bar them, and in this they are supported by the neutral nations, headed by Denmark, whose delegates already have protested to the conference leaders.
Furthermore, Dr. Walter Rathenau, German foreign minister, maintains the conversations with Russia were not secret as he says. Prime Minister Lloyd George of Great Britain was notified last week through another member of the British delegation, that the Germans "could not agree to a treaty with Russia and the report of the allied experts, and were forced to negotiate with Russia direct."
DELEGATES IMPRESSED
The conference delegates were impressed by the words of warning concerning the financial situation in Europe set forth in the report of the special board of eminent experts. Hopes were voiced today that an international monetary convention with the participation of the expert, will soon be convened to examine the financial position of the whole world and to recommend.

Scientific Firebug Destroys Churches
MONTREAL, April 19.—Police today redoubled their search for a religious pyromaniac following the burning Tuesday night of the historic Notre Dame convent here—the third important Catholic edifice in Canada to be destroyed by fire in less than a month.
The trail of the suspect first was crossed April 14, when a fireman fighting a conflagration which destroyed the Church of the Sacred Heart here with a loss of \$500,000 heard a man in the crowd of spectators exclaim:
"St. Bridges will be the next and then I will get the rest."
The man escaped but an investigation at that time convinced the police a scientific firebug, specializing in crossed electric wires, had caused the fire, as well as the one which a week earlier destroyed the famous Basilica of Ste. Anne de Baupre, housing the famous shrine of St. Anne, which was known as the "Lourdes of America."
In both cases the fires were found to have been started by crossed electric wires. Further investigation showed that a man posing as an electrician had sought admittance to St. Vincent de Paul's.

Former Senator Hollis Would Appear to Have Pair of Wives
CASE HELD UNUSUAL
New Hampshire Dignitary Says He Was Guided By Lawyers
SOFIA, April 19.—(By The Associated Press.)—The divorce case of former United States Senator Henry F. Hollis of New Hampshire by the pastor of the Unitarian church at Dubniza is not officially recognized by the Bulgarian states and possesses no legal force, the department of religion and education of the foreign office has advised the Bulgarian legation in Washington.
The religion department denies having given official approval to the divorce papers, and the government is instituting proceedings against Pastor Topitsky, who granted the divorce.
Dr. Dobitsky, professor of canonical law at Sofia university, declares the divorce invalid by virtue of the Bulgarian laws. He points out that Bulgarian religious authorities have not the power to annul a marriage contracted civilly either at home or abroad and says that only the civil authority which executed such a marriage can annul it.
The Bulgarian newspapers are printing long articles commenting on the unusualness of the case. Mr. Hollis is well known here, as he had represented a large American corporation seeking to sell the government excess American war stocks of freight cars.

City Chemist Makes It to Hop Seizure
OMAHA, Neb., April 19.—They are making beer today at the Omaha City hall.
By Friday the first brew will be bottled. Three days later the beverage will be ready for a test to determine how much of a "kick" it contains. Professor C. F. Crowley, city chemist, is brew master and is to make the test, assisted possibly by James H. Haney, former federation prohibition director.
GROCERS NABBED
Dave Bernstein and Max Frie, who conduct a grocery here, were arrested several days ago by federal agents and a quantity of malt and hops prominently displayed in their store were seized. The officers also confiscated a recipe, posted in a conspicuous place near the malt and hops, and it is this formula which the city chemist is following in his brewing operations.
WAITING FOR KICK
Mr. Haney is counsel for Bernstein and Frie and he contends that if the ingredients seized at the grocery and used according to recipe do not make a beverage of more than half of one per cent alcohol the seizure is illegal. If the brew is not ready by Saturday, when the hearing in federal court is scheduled to be held, Mr. Haney says he will request a postponement until such a time as the percentage of "kick" to the beverage now being brewed can be determined.

SMASHED MACHINE ENDS OCEAN FLIGHT
RIO DE JANEIRO, April 19.—(By The Associated Press.)—The Portuguese aviators who were attempting a flight from Portugal to Brazil were unable to proceed in their hydro-airplane from St. Paul rocks, a few hundred miles short of their goal on the American continent, where they landed Tuesday night, because of the damage to their machine, according to a Havan dispatch from Pernambuco today.
The unofficial time of the flight is given as 15 hours. The estimated distance flown is approximately 900 miles thus making the time of the airplane 60 miles an hour.
Confirmation of the safe landing of the aviators at St. Paul's rocks was enthusiastically received in all the large cities of Brazil.

PHYSICIAN UNDER CRITICISM RESIGNS
SAN FRANCISCO, April 19.—Dr. Albert Abrams, San Francisco physician, credited with discovering a purported blood test to determine paternity, announced today that he had resigned from the American Medical Association and the San Francisco Medical society because of what he termed the opposition of those organizations to his research work.
The immediate reason for his action was described as an attack in the Journal of the American Medical Association, in which Dr. Abrams' theory of the radioactivity of disease.

TRUCK FARMERS POULTRY MEN DAIRY MEN
Over 4000 automobiles are owned and operated by business men and residents of Ogden.
Is it worth anything to you to have an auto party drive up to your farm and pay cash for your produce?
IT CAN BE DONE
You let these city residents know you have the produce for sale, where you live, and watch them come with hard cash.
The easiest way to let these cash buyers know where you are located is through Standard-Examiner want ads. Call at office next time you are in Ogden, or
